

Andermatt Canada Inc.

## Production Technician

**Location: Fredericton, New Brunswick**

Andermatt Canada Inc., located in Fredericton New Brunswick, is a member of the Andermatt Group which has headquarters in Switzerland. Family and employee owned, Andermatt has been developing biological solutions in agriculture for over 3 decades, rising to become recognized as a global leader in the biological segment. Andermatt Canada Inc., as a member of the Andermatt Group, is a leading production site for baculovirus products for the agricultural and forestry markets.

Our business is growing and we are looking for a Production Technician to join our team. The successful candidate will be responsible for the execution of the company's production needs following SOPs to setup and harvest production units following a regimented, established timeline. We are looking for a self-motivated and team-oriented person with strong analytical and communication skills.

### **RESPONSIBILITIES:**

- Assisting in all aspects of laboratory baculovirus production (insect rearing, diet preparation, virus production & packaging) following production SOPs
- Troubleshooting production issues
- Monitor and maintain production batch records to ensure proper infection, larval development and reduction of microbial contaminants.
- Assist with all aspects of laboratory baculovirus research as required by Research Manager.
- Assist with all aspects of pheromone lure production as assigned.
- Assist in pheromone trap production as required.
- Employee will be required to work with and handle all life stages of *Lymantria dispar*, *Chrysodeixis Includens*, *Spodoptra Frugiperda*, *Orgyia leucostigma*, *Trichoplusia ni* and any other insect species assigned by Andermatt Canada Inc. management depending on project.
- Ensure that a complete accounting of activities is reported to the Production Manager at the end of every bi-weekly pay period via WeWorked.
- Ensure that assigned laboratories hygiene and maintenance meet the standards required by Production Manager.
- Ensure that work, learning and professional development plans, and performance appraisals are completed for themselves and their subordinates in a timely manner.
- Carry out other duties as assigned by the Andermatt Canada Inc. management.

**REQUIREMENTS:** The successful candidate will possess the following:

- Minimum of 2 years of relevant laboratory experience
- A Bachelor's degree in biology, laboratory technology, or related field

An equivalent combination of education, training and experience may be considered.

**COMPETENCIES:** The successful candidate will possess the following competencies:

- Analytical Thinking/Judgment
- Initiative
- Teamwork and Cooperation
- Time management skills
- Proficiency in MS Office (Word, Excel, PowerPoint, Outlook)
- Experience working with insects considered an asset
- Experience with Lean Six Sigma methodologies considered an asset
- Warehouse, Shipping and Receiving experience considered an asset
- General labour, contracting experience considered an asset

Salary: TBD

**APPLY TO:** We encourage applicants to apply on-line, via email, at the following address by July 15, 2023.
